Any replacement compact disc submitted should be accompanied by a certification as required by 37 CFR 1.52(e) that each disc of a duplicate set is identical to the other disc of the set. If a directory of the disc could be printed, it is attached and non-ASCII files are marked on the directory listing.

RESPONSE TO NOTICE TO FILE MISSING PARTS

A Notice to File Missing Parts of a Nonprovisional Application was mailed on June 15, 2004, requiring applicant to submit a new sequence listing together with a compact disc that complies with 37CFR 1.52 (e). Enclosed herewith is a copy of the original Notice to File Missing Parts, a statement under 37CFR 1.821 (e) requesting the transfer of the sequence listing from prior application serial no. 09/573,080, a copy of our original letter under 37CFR 1.821 (e), a written copy of the sequence listing, and a statement under 37CFR 1.821 (f). The compact disc submitted with the application as filed as an exhibit to the preliminary amendment is not replaced herewith because, as noted in the Notice to File Missing Parts, the information contained on that disc cannot be submitted on compact disc. Accordingly, that information will be submitted in oral and written form at a later date, although applicant reserves the right to submit such information in support of its claims at that time.

Respectfully submitted,
